

To Seniors in an AICE Class,

Grade Transcript Service

What students need to do now

Graduating Cambridge seniors who have taken any AS & A Level exams or plan to take June exams, should log in to Cambridge's [Grade Transcript Service](#) and pre-order their transcript for:

- The upcoming June 2026 exam series
- ALL previous exam series

Pre-ordering ensures the college or university can access electronic transcripts as soon as scores are released, allowing students to register for the appropriate college courses without delay.

Why students should send their transcript

Students taking Cambridge International AS & A Levels can qualify for advanced placement, recognition, or college credit at many institutions. Even if a college does not publish a Cambridge credit policy, qualifying scores are often reviewed for credit and placement by the registrar after admission steps are complete.

When to request transcripts

Students should send their Cambridge transcript to the institution where they have been accepted and committed to enroll. The transcript supports final credit evaluation and course placement.

Cost and payment

- \$17 fee per transcript, per institution
- Pay online by Visa, Mastercard, or American Express

Where students can find instructions

Step-by-step guidance is available on the student webpage [Get and send exam grades](#).
