Financial literacy (Personal Finance and Money Management) – Graduation Requirement*

Beachside will offer this ½ credit personal finance course paired with another ½ credit class on our campus during the student's **senior** year

*AICE diploma students do not have this requirement

If a student does not want this class on their **senior** year schedule, then complete the following steps.

1. Request the personal finance and money management course on FLVS or SJVS now! Directions to request an FLVS or SJVS course can be found here: https://www-sjvs.stjohns.k12.fl.us/wp-content/uploads/2026/04/Virtual-Student-Registration-Guide.pdf
    a. The course will not be approved for rising seniors if requested after February 1 (as it will not give the student enough time to complete the course before leaving for spring break)
2. Rising seniors must complete the course before leaving for spring break. All other students must have it finished before leaving for spring break of their junior year.
3. Rising seniors - The class will not be removed from the rising senior requests or senior schedule unless it is 100% complete. **If a rising senior does not complete the course before spring break, then the course will be placed on the Beachside senior schedule.**
4. All other grade levels – you have until you leave for spring break your junior year to get this credit, otherwise it will be included on your senior year schedule along with the ½ credit course that will be paired with it.
