Also:

Schedules will not be printed; students and their parents should log into HAC to view schedule before walking on campus as cell service is spotty.

Where can students find their schedule?

Log into your HAC account - <https://www.stjohns.k12.fl.us/hac/> , click on the classes tab, then click on the schedule tab. Students will be able to see their full schedule, including room numbers. Students should take a screen shot of this schedule during the ride to school on the first day. Class periods on a schedule are subject to change at any time because of class leveling, so all students should check schedules again on the first day of school.

Can't access HAC?

If students/parents/guardians cannot access HAC, parents/guardians have not submitted the returning student verification form or there is an issue with updated residency. Students and parents/guardians won't be able to access HAC or see the schedule until returning student verification or residency documentation is completed. Parents/guardians should check their email from SJCSD that was sent on August 2nd and complete the returning student verification ASAP.

New to SJCSD?

Students should go to the media center to get their HAC username and password to log into a computer to activate their account. After students activate their account, they will be able to log into see their schedule.
