Dear BHS AP Students and Families:

This week we learned that College Board has been experiencing some technical difficulties with their Blue Book testing platform. Unfortunately, this has caused some students to lose progress on their exams. If this impacted your student, they were given instructions to report this issue at the end of their test session. There is no further action needed from our students.

Our AP testing coordinator has also provided College Board with an incident report for all students and our College Board representative has been contacted with an update. SJCS D is aware of this issue as well.

We do not know how College Board will respond to this issue, we are working closely with them to rectify the problem as quickly and as efficiently as possible. We will update students should we need anything from them over the coming weeks.

Thank you for your understanding,

BHS Advanced Academic Programs
