- Principal's Report: Greg Bergamasco: 170 staff, almost 2500 students, largest counseling group in SJCS. Vacancies: choir, math, ELA due to growth in enrollment. Updates on traffic patterns. Questions: Parents: "My student leaves at 8:30 am, will he get in trouble for traffic if he is late?" Usually after the first two weeks, the traffic pattern smooths out. "Are the bus times for pick-up set in stone?" Beachside starts later to try to curb that, but it is recommended to reach out to the Director of Transportation. "Is there any plan for expanding to a second entrance/exit?" As of now, no. The district will not approve a second exit for High Schools. "Is our growth due to accepting too many students outside of the BHS zoning into the AICE programs?" No, it is very regulated in the district and acceptance is capped. "With the district's new mandate on not allowing food to be served for students, will we be allowed Popcorn days?" The district is going to revise to clarify the guidelines soon, but popcorn should be allowed.
